

# DERBY CARES

**Our city's pledge to  
'Bridge the Gap'  
in Children's Mental Health**

“Without you I wouldn't  
be here, how can I  
possibly find the words  
to say thank you for  
that?”

# DERBY'S MENTAL HEALTH CRISIS

OUR CITY HAS SOME OF THE  
HIGHEST STATISTICS FOR  
CHILDREN SUFFERING WITH  
MENTAL HEALTH IN THE UK

**51%**

of children and young  
people are not  
receiving support

Demand for  
mental health  
support outweighs  
available  
services

across Derby  
and Derbyshire

Children and  
young people are  
**more vulnerable**  
**to mental illness**  
**in Derby**

when  
compared  
nationally

Children and young people with  
a mental health condition are more likely to...

Have lower  
school  
attendance

Be bullied

Have lower  
academic  
success

Smoke or  
misuse drugs

Have poor  
employment  
prospects

“ We were desperate for help. My daughter was out of school with trauma and anxiety from attending. Her mental health was suffering. Nowhere could offer the support she so desperately needed.

She built a trusting relationship with Nikki and made progress. Eventually, supported by Bridge the Gap, she was able to start at a new school and grow in confidence, becoming happier and making her own world bigger.

”

# JOIN DERBY CARES
