

Hello, my name is Lauren and I live with my partner and our 2 children. Aside from busy family life I enjoy going for walks with the dog, catching up with friends and chilling out with a cuppa browsing a good interior design magazine.

For the last eight years I have been mainly working as a Teaching Assistant. During this time I have achieved a Level 3 Diploma in Specialist Support For Teaching And Learning and have had the pleasure of putting these skills into practice in a variety of different settings. I have specialised for the last few years working as a 1:1 Special Educational Needs learning support assistant. These roles have been something I have enjoyed so much as I love working on a 1:1 basis supporting with all aspects of that individual child's education, development and well-being.

I have also worked for Children Services within the Early Help team for Derbyshire County Council providing support for vulnerable families. I feel very passionate about the importance of a family's well-being and believe in working creatively to inspire and support children, young people, and their families to enable them to thrive. This is why I am so excited to be part of the team at Bridge the Gap. I look forward to supporting more young people's mental health and well-being and continuing the amazing work that they do.
